Series 1: The Balance Sheet

Introduction

Our analysis looks into the tagging quality, accuracy, and consistency within the balance sheet and footnotes of recently filed 10-Q and 10-Ks by our competitors. Attention to detail and accuracy are pertinent in order to have a reliable, trustworthy, and reputable filing.

Example 1

Analysis: The tag “yusg_StockholdersEquityDeficit” in Figure 1A (shown below) is not necessarily incorrect by itself, but because the concept also appears in the Balance Sheet (Figure 1), it should be tagged, as in the balance sheet with the tag “StockholdersEquity”, in order to have consistency throughout the filing. The corrected detail tag can be viewed in Figure 1B. Moreover, since the tag used in the filing is an extension concept, the reporting entity may be subject to questioning since the correct tag is clear in the US GAAP taxonomy.

FINANCIAL STATEMENT CASE STUDY ANALYSIS

Series 1: The Balance Sheet

Example 2

Analysis: On Figure 2, since the reporting entity stated that their director advanced funds for expenses only, the company is not holding any sort of deposit for the director. Thus “RelatedPartyDepositLiabilities” is the incorrect tag. On Figure 2A, since the reporting entity stated that their director advanced funds for expenses only, the company is not holding any sort of deposit for the director. Thus, the correct tag is “DueToRelatedPartiesCurrent”.
